Strategic Planning Term	Definition
Core Values/Guiding Principles	How people want to behave with each other in the organization. Value statements describe actions that are the living enactment of the fundamental values held by most individuals within the organization. What are our guiding principles, as a group, to adhere to no matter what?
Core Purpose/Mission Statement	The organization's core purpose. Why do we exist?
Vision Statement (5+ years)	Where you are headed – your future state – your Big, Hairy, Audacious Goal. Where are we going?
Competitive Advantages	A characteristic(s) of an organization that allows it to meet their customer's need(s) better than their competition can. What are we best at in our market?
Organization-Wide Strategies	Your strategies are the general methods you intend to use to reach your vision. A strategy is like an umbrella. It is a general statement(s) that guides and covers a set of activities. You can develop strategies for your whole organization, a department, a specific set of activities, or a guiding statement for a year. No matter what the level, a strategy answers the question "how."
Long-Term Strategic Objectives (3+ years)	Long-term, broad, continuous statements that address all areas of your organization. If you have a five-year vision, these would be three- to four-year intermediate guideposts on the way there. What must we focus on to achieve our vision?
Short-Term Invalid Variable Name and Invalid Variable Name (1 year)	Short-term Invalid Variable Name that convert the Strategic Objectives into specific performance targets. Effective Invalid Variable Name clearly state what, when, who and are specifically measurable – they are Specific, Measurable, Attainable, Responsible person, time bound (SMART). What must we do to achieve our long-term Strategic Objectives?
Key Performance Indicators (KPIs)	Metric and non-metric measurements essential to the completion of an organization's goals. Each organization narrows the possible list down to a manageable group of KPIs that make the most difference to performance. KPIs are linked to Invalid Variable Name. How will we know we have achieved our Invalid Variable Name?
